April 9, 2020 Project Update

South Lake Shore Drive Reconstruction

Village of Fontana-on-Geneva Lake

Wanasek Corporation, the Village Contractor, is scheduled to start construction the week of April 13th. The Contractor has begun mobilizing this week including bringing in equipment and materials, installation of the detour and traffic control signage, and installation of temporary erosion control measures. Per the Wanasek schedule exhibit they plan to start with a storm sewer line in the Abbey Springs Marina between the lake and S Lake Shore Drive next week, before moving back to S Lake Shore Drive west of Indian Hills Road. Wanasek is anticipating a temporary closure of S Lake Shore Drive west of the Abbey Springs entrance for one day to cross the road with a storm sewer.

We Energies is continuing to relay (replace) the existing gas main along Brickley Drive and S Lake Shore Drive west of Indian Hills Road and will continue to work from west to east. The gas line relay work is not a Village project. Other private utilities may be onsite during the project including electric, cable or telephone, however those utilities are not proposing any changes except for minor adjustments to relocate conflicting poles or lines.

Feel free to contact the Village at (262) 275-6136 with any questions.
