

April 19, 2024 Project Update

2024 Street and Utility Improvements

Village of Fontana-on-Geneva Lake

Remember to **SLOW DOWN in Construction Zones** and take extra precautions around construction crews, pedestrians, as well as material & equipment stored within and around the work zones. Follow all posted construction signage and/or detours.

Construction work over the next couple of weeks will continue on Shabbona Drive. Concrete curb and gutter is scheduled for the week of April 22nd between Big Foot Country Club and Church Drive, which includes driveway aprons. Residents in this area will need to park on the street until the driveways are cured and reopened. We Energies has also notified the Village that they will begin work next week with some gas line relocations at the north end of Shabbona Drive at S Lake Shore Drive. Following the gas line relocations there will be some short-term full closures of S Lake Shore Drive at the intersection of Shabbona Drive for underground utility work. **NO THRU TRAFFIC** will be allowed within the work areas so please plan accordingly.

The anticipated construction schedule may be adjusted because of inclement weather or other factors outside of the Contractor's control. Work by private utilities such as gas, electric, phone and cable are not part of the Village's Contract and is typically not incorporated in the above schedule. Feel free to contact Village Hall at (262) 275-6136 with any questions.
