

April 25, 2024 Project Update

2024 Street and Utility Improvements

Village of Fontana-on-Geneva Lake

Remember to **SLOW DOWN in Construction Zones** and take extra precautions around construction crews, pedestrians, as well as material & equipment stored within and around the work zones. Follow all posted construction signage and/or detours.

S Lake Shore Drive at Shabbona Drive is scheduled to be closed for 1-2 weeks starting on Monday April 29, 2024 for underground utility work. **NO THRU TRAFFIC** on S Lake Shore Drive nor access to Shabbona Drive from the north will be allowed during this time so plan accordingly. Concrete curb and driveway apron work will continue through next week between Big Foot Country Club and Church Drive. Roadway spot repairs will also begin next week on Shabbona Drive between Church Drive and CTH “B”, followed by surface milling of the asphalt in that section of roadway. Paving of Shabbona Drive between Big Foot Country Club and CTH “B” is scheduled for the week of May 6th. WE Energies has also started working on gas line relocations on Fontana Ave.

The anticipated construction schedule may be adjusted because of inclement weather or other factors outside of the Contractor’s control. Work by private utilities such as gas, electric, phone and cable are not part of the Village’s Contract and may not be reflected in the above schedule. Feel free to contact Village Hall at (262) 275-6136 with any questions.
