

NOTICE OF PUBLIC STREET AND UTILITY CONSTRUCTION

2024 Street & Utility Improvements Project

Project Description: The 2024 Street & Utility Improvements project includes road reconstruction & surface maintenance, concrete curb and gutter on Shabbona Drive from S Lake Shore Dr to Church Dr, water main replacement, storm water management and sanitary sewer rehabilitation. Project locations are Shabbona Drive, Berwyn Drive and Fontana Ave and are as depicted below:

Public Informational Meeting: [Saturday, March 9, 2024](#) between [10:00 am and Noon](#) at the Fontana Village Hall, 175 Valley View Road. Representatives from the Village and their engineer (Ruekert & Mielke, Inc.) will be there to answer any questions and provide a brief project update at both 10:15 & 11:15am.

Note: It is possible that members of and possibly a quorum of members of other governmental bodies of the municipality may be in attendance at the above stated meeting to gather information; no action will be taken by any governmental body at the above-stated meeting other than the governmental body specifically referred to above in this notice and agenda. Please note that, upon reasonable notice, efforts will be made to accommodate the needs of disabled individuals through appropriate aids and services. For additional information or to request this service, contact the Village Hall Office between 8:00 a.m. - 4:00 p.m. or call 262-275-6136 or write PO Box 200, Fontana, Wisconsin 53125.

2024 Street and Utility Improvements Project

Anticipated Construction Schedule: April 2024 – November 2024. Note: private utility work (gas, electric, telephone, cable) may have a different schedule and is independent from the Village Contract.

Typical Working Hours: 7:00 am to 6:00 pm, Monday – Saturday. No equipment may be started before 6:30 am. No work on Holidays.

Traffic Concerns: Emergency services, school district busing, USPS and garbage disposal services will be notified of the work with further coordination to take place prior to and during construction. Local traffic access will be maintained to the greatest extent possible. Temporary driveway closures due to construction will be shared directly w property owners.

Mail Delivery: In an effort to streamline mail delivery during construction, mailboxes may be moved to one or more central locations along the street. The Village will work with USPS and notify residents if this is necessary.

Water Shut Off: Property Owners may experience times WITHOUT water. The Village and its contractors will do everything possible to limit these disruptions and notify homeowners the evening before their occurrence. Water may appear cloudy for a short period of time after water service is restored. Allow water to run through a tub faucet or garden house until the water appears clear. Whenever possible, discharge this initial volume of water from a faucet BEFORE any filters or water softeners.

Water Laterals: The Village is only responsible for the portion of your water lateral that extends from the public water main to the curb stop (typically located near the road right-of-way). The Village is NOT responsible for the portion of your water service that extends from the curb stop to your home. If the water main is proposed to be replaced in the street where your water lateral is located, it will be replaced up to and including the curb stop box.

Property Concerns: Village does NOT anticipate obtaining additional public right-of-way through condemnation or other means. However, minor temporary access and/or grading may be required on a few parcels to avoid creation of steep lawns or driveway grades. A temporary access easement will be requested from those property owners.

Residents within the project limits are advised to remove all personal items such as rocks, landscaping, lighting, plaques, irrigation, fences and monuments from the public road right-of-way. The Village will not be responsible for the replacement or restoration of ANY personal items within the right-of-way. Private parking areas adjacent to but within the public right-of way may be eliminated. If you have any questions regarding where the right-of-way is located or what type of restoration is to be expected in front of your property, please contact the Village.

Village Contacts & Project Updates: The Village will make available regular construction progress updates on the Village's website at vi.fontana.wi.gov. Feel free to contact Village Hall (262-275-6136 Option No. 1) or DPW Director Kevin Day (262-275-3481) or kday@vi.fontana.wi.gov during construction with any project concerns.
