

July 25th, 2024 Project Update
2024 Street and Utility Improvements

Remember to **SLOW DOWN in Construction Zones** and take extra precautions around construction crews, pedestrians, as well as material & equipment stored within and around the work zones. Follow all posted construction signage and/or detours.

Excavation and road work are complete along Fontana Ave. Lawn restoration should be complete by the end of this week with trenchless sanitary sewer rehab work to begin within the next month. Utility work is continuing in Berwyn Dr with road excavation expected to start by mid-August and final asphalt paving after Labor Day. Expect some construction work to occur on Saturday's. The Village's Shabbona Drive reconstruction work between Big Foot Country Club and S Lake Shore Dr will start up again after Labor Day. However, We Energies is currently working on Shabbona Drive replacing gas lines, which is independent from the Village work. Feel free to irrigate completed sod or lawn restoration areas in front of your property to ensure quick and healthy grass growth.

The anticipated construction schedule may be adjusted because of inclement weather or other factors outside of the Contractor's control. Work by private utilities such as gas, electric, phone and cable are not part of the Village's Contract and may not be reflected in the above schedule. Feel free to contact Village Hall at (262) 275-6136 with any questions.
