May 21, 2020 Project Update

South Lake Shore Drive Reconstruction

Village of Fontana-on-Geneva Lake

Storm sewer work is continuing in S Lake Shore Drive east of Walworth Avenue (Gate 2 entrance to Glenwood Springs). Road reconstruction work is scheduled to begin at the top of the hill just west of Walworth Avenue the first week of June.

Homes on Brickley Drive are now connected to the new water main. Water main installation will continue in S Lake Shore Drive east of Brickley Drive working towards Indian Hills Road. During this time Property Owners may experience times without water. The Village and its contractors will do everything possible to limit these disruptions and notify homeowners the evening before the occurrence. Water may appear cloudy for a short period of time after water service is restored. Allow water to run through a tub faucet or garden house until the water appears clear. Whenever possible, discharge this initial volume of water from a faucet BEFORE any filters or water softeners.

S Lake Shore Drive between Shabbona Drive and Indian Hills Road as well as Brickley Drive will remain closed to through traffic during this phase of construction. At times, those roadways will not be passible due to construction, even to local traffic. Note that all side roads off S Lake Shore Drive between Indian Hills Road and Shabbona Drive, except for Brickley Drive, are private and are not open to public traffic. Please follow all detours and construction signage.

We Energies is continuing to relay (replace) the existing gas main along S Lake Shore Drive east of the entrance to Abbey Springs. The gas line relay work is not a Village project. Other private utilities may be onsite during the project including electric, cable or telephone, however those utilities are not proposing any changes except for minor adjustments to relocate conflicting poles or lines.

Feel free to contact the Village at (262) 275-6136 with any questions. We hope everyone has a happy and safe Memorial Day Weekend.
