May 28, 2021 Project Update

South Lake Shore Drive Reconstruction

Village of Fontana-on-Geneva Lake

The South Lake Shore Drive Reconstruction project is now substantially complete, and all streets are back open to traffic. With that we want to share some additional information:

- Except for emergencies **no parking is allowed on S Lake Shore Drive**. Guests should be directed to park on the private property they are visiting. This includes contractors performing work for a private property owner. Vehicles parked on S Lake Shore Drive block vehicle, pedestrian and bicycle traffic and sight lines.
- **Do not rake leaves or yard debris into the roadway or gutter**. This also includes no temporary storage of landscaping material. In addition to blocking the storm water system that results in more flooding, debris in storm water runoff eventually ends up in the waterways and Geneva Lake. Yard debris for Village pickup should be stored behind the curb and gutter.
- The temporary **all way stop signs at the intersection of S Lake Shore Drive and Indian Hills Road have been made permanent**. This intersection has sight distance vision problems and safety is the Village's number one priority.
- Property owners are encouraged to water any recently restored lawn areas in front of their property to achieve a quick dense ground cover.

We anticipate some minor project punch list work to continue over the next couple of weeks that include additional landscape restoration, but do not anticipate any full road closures or detours. The Village has a 1-year warranty on the project and any larger Punchlist repair items may be scheduled on a later date to avoid high traffic periods.

Have a happy and safe Memorial Day weekend!

Feel free to contact the Village at (262) 275-6136 with any questions.
